

# Leave No Trace

(some suggested icons and text)

Dispose of waste properly.

- Pack it in, pack it out. Inspect your campsite and rest areas for trash or spilled food, and pack out all trash and leftover food.

- Deposit solid human waste in catholes dug 6-8 inches deep at least 200 feet from water, camp, or trails. Cover and disguise the cathole when finished.

- Pack out toilet paper and personal hygiene products.

- Wash yourself and dishes at least 200 feet away from streams or lakes and use small amounts of biodegradable soap. Strain and scatter dishwater.

Leave what you find.

- Preserve the past: examine, but do not touch cultural or historic structures and artifacts.

- Leave rocks, plants, and other natural objects as you find them.

- Avoid introducing or transporting non-native species.
- Do not build structures, furniture, or dig trenches.
