

Wildland Fire Information

You are now entering an area where fire may be managed to benefit the wildland resource. Management of these wildland fires may include activities ranging from monitoring active fires to putting them out. You may or may not see aircraft and firefighters in the fire area.

Fire is part of a natural process that has shaped, and will continue to shape the environment you are enjoying today.

WATCH OUT FOR THESE HAZARDS:

- Falling snags or trees**
- Rapid spreading flames**
- Rolling material such as rocks or logs**
- Heavy smoke and limited visibility**
- Holes from burned out stumps**

Please consider these hazards when entering the area, and take appropriate safety precautions which may include changing your travel plans.
