

Wilderness.net's Darwin Falls Wilderness Fact Sheet

Introduction

The United States Congress designated the Darwin Falls Wilderness in 1994 and it now has a total of 8,189 acres. All of the wilderness is in California and is managed by the Bureau of Land Management.

Description

Carved into numerous shallow depressions and canyons and holding a variety of stark volcanic rock faces, the Darwin Plateau stands guard in the northern portion of this Wilderness. In the south, Darwin Falls spills down spectacular Darwin Canyon. Lined with willows and cottonwoods, the water rises to the surface from a permanent spring outside the northeast Wilderness boundary inside Death Valley National Park. A creosote bush community dominates much of the landscape, giving way to Joshua tree woodlands higher in the hills. Among other desert wildlife, prairie falcons are often spotted. Two springs on the eastern boundary supply additional water.

Leave No Trace

How to follow the seven standard Leave No Trace principles differs in different parts of the country (desert vs. Rocky Mountains). Click on any of the principles listed below to learn more about how they apply in the Darwin Falls Wilderness.

1. [Plan Ahead and Prepare](#)
2. [Travel and Camp on Durable Surfaces](#)
3. [Dispose of Waste Properly](#)
4. [Leave What You Find](#)
5. [Minimize Campfire Impacts](#)
6. [Respect Wildlife](#)
7. [Be Considerate of Other Visitors](#)

Area Management

The Darwin Falls Wilderness is part of the 110 million acre National Wilderness Preservation System. This System of lands provides clean air, water, and habitat critical for rare and endangered plants and animals. In wilderness, you can enjoy challenging recreational activities like hiking, backpacking, climbing, kayaking, canoeing, rafting, horse packing, bird watching, stargazing, and extraordinary opportunities for solitude. You play an important role in helping to *"secure for the American people of present and future generations the benefits of an enduring resource of wilderness"* as called for by the Congress of the United States through the Wilderness Act of 1964. Please follow the requirements outlined below and use Leave No Trace techniques when visiting the

Darwin Falls Wilderness to ensure protection of this unique area.

Unless otherwise specified, no motorized equipment or mechanical transport, with the exception of wheelchairs, is allowed. This is generally true for all federal lands managed as designated wilderness.
